Global terrorism database

- 1970 to 2015

- 170000 data points

- 200+ countries

- 100+ variables

G. LaFree and L. Dugan. Introducing the global terrorism database. Terrorism and Political Violence, 19(2):181-204, 2007

Data

- Categorical (Target, Weapon and Attack type, Group, Nationality)

- Ratio (Number of victims)

- Geophysical (latitude and longitude of the location)

- Time (Date of the attack and the resolution)

- Text (Summary, Motives, Additional notes)

- Networks (of groups and their subgroups operating in the same country)
